NMI Applicant Questionnaire: New Applicants

Thank you for your interest in the Nuclear Medicine Institute (NMI)!

We are excited to learn more about you, including why you want to be a part of the class and what you know about the field of nuclear medicine technology. Your answers to the questions below will help us accomplish this, and also will play a role in which applicants are offered seats in the class.

Please remember, this is part of the application process and without this information we may be unable to offer you a seat in the class.

Answers should please be 100 – 500 words in length, depending on the question.

L.	In your own words, please describe what nuclear medicine is. How would you explain nuclear medicine to a patient, for instance? Again, please use your own words— do not copy a definition from a website or dictionary. We simply want to know where your knowledge level is currently.

	Have you ever been brought up on charges of Academic Dishonesty or been accused of cheating in any University or College setting? If yes, please explain.
•	"I understand that demonstrating Honesty and Integrity is critical throughout the entire NMI program, beginni with this application and continuing throughout my time in the classroom as well as during clinicals.
	As such, I attest that all answers above are my own work, based on my own ideas and present knowledge. I understand that falsification, plagiarism, and/or any other practice deemed as Dishonest or demonstrating a Lack of Integrity at any point throughout the NMI program, including on my application and/or this questionnaire, would be grounds for immediate dismissal."
